

SUPPLEMENTAL INFORMATION

Twelve Months Ended December 31, 2016 (unaudited)

Dated: February 28, 2017

Extendicare Inc.

Non-GAAP Measures

Extendicare assesses and measures operating results and financial position based on performance measures referred to as "net operating income", "net operating income margin", "EBITDA", "Adjusted EBITDA", "Adjusted EBITDA margin", "earnings before depreciation, amortization, and other expense", "earnings (loss) from continuing operations before separately reported items, net of taxes", "Funds from Operations", and "Adjusted Funds from Operations". These measures are commonly used by Extendicare and its investors as a means of assessing the performance of the core operations in comparison to prior periods. They are presented by Extendicare on a consistent basis from period to period, thereby allowing for consistent comparability of its operating performance. These are not measures are presented in this document because either: (i) management believes that they are a relevant measure of the ability of Extendicare to make cash distributions; or (ii) certain ongoing rights and obligations of Extendicare may be calculated using these measures. Such non-GAAP measures may differ from similar computations as reported by other issuers and, accordingly, may not be comparable to similarly titled measures as reported by such issuers. They are not intended to replace earnings (loss) from continuing operations, net earnings (loss), cash flow, or other measures of financial performance and liquidity reported in accordance with GAAP.

References to "net operating income", or "NOI", in this document are to revenue less operating expenses, and this value represents the underlying performance of our operating business segments. References to "net operating income margin" are to net operating income as a percentage of revenue.

References to "EBITDA" in this document are to earnings (loss) from continuing operations before net finance costs, income taxes, depreciation and amortization. References to "Adjusted EBITDA" in this document are to EBITDA adjusted to exclude the line item "other expense", and as a result, is equivalent to the line item "earnings before depreciation, amortization, and other expense" reported on the consolidated statements of earnings. Management believes that certain lenders, investors and analysts use EBITDA and Adjusted EBITDA to measure a company's ability to service debt and meet other payment obligations, and as a common valuation measurement in the long-term care industry. For example, certain of our debt covenants use Adjusted EBITDA in their calculations.

References to "earnings (loss) from continuing operations before separately reported items" in this document are to earnings (loss) from continuing operations excluding the following separately reported line items: "fair value adjustments", "loss (gain) on FX and financial instruments" and "other expense". These line items are reported separately and excluded from certain performance measures, because they are transitional in nature and would otherwise distort historical trends. They relate to the change in the fair value of, or gains and losses on termination of, convertible debentures, interest rate agreements and foreign currency contracts, as well as gains or losses on the disposal or impairment of assets, and foreign exchange gains or losses on capital items. In addition, these line items may include provisions for restructuring charges and the write-off of unamortized financing costs on early retirement of debt. The above separately reported line items are reported on a pre-tax and on an after-tax basis as a means of deriving earnings from operations and related earnings per share excluding such items.

"Funds from Operations", or "FFO", is defined as Adjusted EBITDA less depreciation for furniture, fixtures, equipment and computers, or "depreciation for FFEC", accretion costs, net interest expense and current income taxes.

"Adjusted Funds from Operations", or "AFFO", is defined as FFO plus: i) the reversal of non-cash financing and accretion costs; ii) the reversal of non-cash share-based compensation; iii) the principal portion of government capital funding; iv) amounts received from income support arrangements; and v) the reversal of income or loss of the captive insurance company that was included in the determination of FFO, as those operations are funded through investments held for U.S. self-insured liabilities, which are not included in the Company's reported cash and short term investments. In addition, AFFO is further adjusted to account for the difference in total maintenance capex incurred from the amount deducted in the determination of FFO. Since our actual maintenance capex spending fluctuates on a quarterly basis with the timing of projects and seasonality, the adjustment to AFFO for these expenditures from the amount of depreciation for FFEC already deducted in determining FFO, may result in an increase to AFFO in the interim periods reported.

Notes:

1 Represents net earnings (loss) prior to the gain (loss) on financial instruments and foreign exchange, net of tax, and other expense, net of tax.

2 These are the actual Bank of Canada average rates of exchange for the period. The year-to-date revenue and expenses of self-sustaining foreign operations are translated at the average year-to-date rates of exchange, and the results of the quarters are calculated deducting the previously reported year-to-date results. In addition, specific transactions such as gains or losses related to restructuring charges, asset disposals, impairment and other items, are translated at rates of exchange in effect at the time of the transactions. Therefore, the effective exchange rates calculated from the translated amounts reported above, may differ from the actual average rates of exchange indicated for the period.

Notes:

1 Represents net earnings (loss) prior to the gain (loss) on financial instruments and foreign exchange, net of tax, and other expense, net of tax.

2 These are the actual Bank of Canada average rates of exchange for the period. The year-to-date revenue and expenses of self-sustaining foreign operations are translated at the average year-to-date rates of exchange, and the results of the quarters are calculated deducting the previously reported year-to-date results. In addition, specific transactions such as gains or losses related to restructuring charges, asset disposals, impairment and other items, are translated at rates of exchange in effect at the time of the transactions. Therefore, the effective exchange rates calculated from the translated amounts reported above, may differ from the actual average rates of exchange indicated for the period.

Extendicare Discontinued Operations (unaudited)

The following is a summary of results of all discontinued operations.

1. "Adjusted EBITDA", "funds from operations" and "adjusted funds from operations" are not recognized measures under GAAP and do not have a standardized meaning prescribed by GAAP. Refer to discussion of non-GAAP measures.

2. These two line items combined represent the total of our maintenance capex incurred in the period for continuing operations. An amount equivalent to our depreciation for FFEC, or furniture, fixtures, equipment and computers, is deducted in determining FFO, and the difference in total maintenance capex incurred is adjusted for in determining AFFO.

3. Excludes current income tax with respect to items that are excluded from the computation of AFFO from continuing operations, such as fair value adjustments, gains or losses on foreign exchange, financial instruments, asset impairment, and disposals, other expense, and provisions for prior period tax reassessments.

4. Represents AFFO of the captive insuarance company that decreases/(increases) its investments held for self-insured liabilities not impacting the Company's reported cash and short-term investments.

Maintenance CAPEX (discontinued operations)	2,520	24	-	'	2,544	5,213	132		!	5,345	<u> </u>	763			763	<u> </u>	780		'	780	9,432

1. "Adjusted EBITDA", "funds from operations" and "adjusted funds from operations" are not recognized measures under GAAP and do not have a standardized meaning prescribed by GAAP. Refer to discussion of non-GAAP measures.

2. These two line items combined represent the total of our maintenance capex incurred in the period for continuing operations. An amount equivalent to our depreciation for FFEC, or furniture, fixtures, equipment and computers, is deducted in determining FFO, and the difference in total maintenance capex incurred is adjusted for in determining AFFO.

3. Excludes current income tax with respect to items that are excluded from the computation of AFFO from continuing operations, such as fair value adjustments, gains or losses on foreign exchange, financial instruments, asset impairment, and disposals, other expense (income), and provisions for prior period tax reassessments.

4. Represents AFFO of the captive insuarance company that decreases/(increases) its investments held for self-insured liabilities not impacting the Company's reported cash and short-term investments.

as at December 31, 2016

- (1) A centre is categorized based on the predominant level of care provided, the type of licensing and the type of funding provided. Some of our long-term care centres include wings housing retirement suites. In this case, the centre and its resident capacity is categorized as "long-term care", and its operations are included as part of our long-term care operating segment. In addition, government-funded supportive living suites have been categorized as long-term care due to the nature of the regulatory oversight and fixed-fee structure determined by the government.
- (2) Extendicare operates nine long-term care centres (1,155 LTC beds and 76 retirement suites) in Ontario under 25 year finance lease arrangements maturing beginning in 2026 through to 2028, with full ownership obtained at the end of the respective lease terms.
